

Ezi-Dock Bio-Pharma Tri-Clamp + Tubing Clamp

Newly available directly from Ezi-Dock Systems is this simple but effective Tri-Clamp developed specifically to meet the needs of pharmaceutical and bioprocessing laboratories and manufacturers. Moulded in USP Class VI grade glass-reinforced Nylon, the Ezi-Dock Tri-Clamp is lightweight, easy to use, corrosion resistant, and can be sterilised by a range of common methods.

Pinch/Tube Clamp

- ⊕ Available in 1/2", 3/4", 1", 1 1/2"
2", 3", 4", 6" and 8" formats
- ⊕ Fully compatible with ASME-BPE and
BPSA plastic and stainless steel flanges
- ⊕ USP Class VI Glass-reinforced Nylon 66
construction offers improved performance
over stainless steel
- ⊕ Moulded production codes offer
full Traceability
- ⊕ Lightweight and easy to operate
- ⊕ Tamper evident feature
- ⊕ Abundant, swift supply
- ⊕ Low cost

Multiple Sterilisation Options

- ✓ Autoclave (can be autoclaved repeatedly
at 134 degrees Celsius)
- ✓ Gamma Irradiation
- ✓ Electron Beam Irradiation
- ✓ Ethylene Oxide
